

INDUCTION HEATING OF PIPES AND TUBES

Megatherm is one of the leading manufacturer of induction heating equipments for Metal Pipes and Tubes . The complete equipment with Heating Power supply and the tube handling system is manufactured as per production line requirement and offers maximum flexibility and output.

INDUCTION HEATING OF PIPED AND TUBES

Improved Economies

- SHORTER START UP TIME
- SHORTER HEATING TIMES
- HIGH EFFICIENCY
- REDUCED SCALING
- ACCURATE TEMPERATURE CONTROL

- CONTROLLED HEAT ZONES
- REDUCED FLOOR AREA
- IMPROVED PRODUCT QUALITY AND REPEATABILITY
- EASILY ADAPTABLE TO AUTOMATIC PROCESS

Improved Environment

- IMPROVED WORKING CONDITIONS
- NO PRODUCTS OF COMBUSTION
- NO EFFLUENT

Typical Induction Heating Applications

- SPIN HOT FORMING OF COMPRESSED AIR/GAS CYLINDERS
- CONTINUOUS ANNEALING OF TUBE AND PIPE
- CONTINUOUS AND STATIONARY PIPE STRESS RELIEVING
- CONTINUOUS HARDENING AND QUENCHING OF PIPE
- STRESS RELIEVING OF PIPE BENDS
- INDUCTION HEATING OF PIPE PRIOR TO BENDING
- INDUCTION HEATING OF PIPE FOR PROTECTIVE COATING
- HEATING OF BILLETS FOR SEAMLESS TUBE MANUFACTURING
- ONLINE AUSTENITIZING & TEMPERING OF STEEL PIPES.
- PIPE END HEATING BY C- CHANNEL COILS FOR PIPE END FLARING
